What is the EFMP?

- The EFMP is a mandatory enrollment program that works with military and civilian agencies to provide comprehensive and coordinated medical, educational, special housing accommodations, community support, and personnel services to Families with special needs.

What is an Exceptional Family Member?

- They are an authorized Family member who requires special medical, educational, and/or mental health services based on a diagnosed physical, intellectual, and/or mental health/behavioral disability.

Does enrollment have any impact on the Airman's career?

- It will not adversely affect selection for promotions, schools, or assignments. Information concerning enrollment in EFMP or any of the data used in the program is not made available to selection boards. EFMP enrollment does not guarantee assignment deletions, deployments, deferments, or compassionate reassignments. All Airmen are still eligible for worldwide assignments and enrollment will not guarantee that an Airman will not serve an unaccompanied tour.

What are the benefits of enrollment in the program?

- Enrollment allows assignment managers to consider the documented needs of the Exceptional Family Members. When possible, the Airman is assigned to an area where the Family Member's needs may be met. This will depend on a valid personnel requirement for the Airman's rank, specialty and eligibility for the tour. Additional services a Family may be eligible for include information and referrals, advocacy, support groups, respite care, and relocation services. Enrollment does not guarantee special consideration for advanced housing placement, appointments or other benefits that are not routinely available to Families.
